Professional Summary

Full-stack Developer specializing in the MERN stack, with a passion for building scalable, real-world applications. Experienced with modern development workflows and tools including Docker, GitHub, and Figma.

Education

Galgotias College of Engineering and Technology

B.Tech, Computer Science & Engineering

Greater Noida, UP

2023 – 2027

Technical Skills

Programming Languages: C++, Java, JavaScript, TypeScript

Web Technologies: React.js, Next.js, Node.js, Express.js, Tailwind CSS, Shadcn UI, Socket.io

Databases & ORMs: MongoDB, Mongoose

Developer Tools: Git, GitHub, Docker, Postman, VS Code, Turborepo

Design Tools: Figma

Projects

AI Website Generator

[\[Live Link\]](#) · [\[GitHub\]](#)

Next.js, Google Gemini API, Clerk, ImageKit.ai, Zustand

- Built an AI-powered website generator allowing users to create and update sites via prompts or inline editing.
- Integrated the Google Gemini API for content generation and ImageKit.ai for AI-based image updates.
- Implemented secure user authentication and organization management using Clerk, including full billing functionality.
- Utilized Zustand for lightweight and efficient global state management across the application.

Signalist-stock Tracker

[\[Live Link\]](#) · [\[GitHub\]](#)

Next.js, Google Gemini API, better-Auth, inngest, tradingView-widgets

- Built a real-time stock market dashboard that provides live price streaming, interactive candlestick charts, and a personalized watchlist for tracking financial assets.
- Integrated the Google Gemini API via Inngest AI to generate personalized daily digests, earning summaries, and customized welcome emails tailored to specific user investment profiles.
- Utilized Inngest for reliable background workflows, including automated cron jobs for daily news delivery and event-driven triggers for real-time notifications.
- Implemented secure user authentication and route protection using Better Auth, featuring a two-column split-screen design and Next.js middleware for efficient session management.

BaseBuild – Collaboration Platform

[\[Live Link\]](#) · [\[GitHub\]](#)

React.js, Node.js, Express, Socket.io, JWT

- Built a collaboration platform (BaseBuild) connecting developers, designers, and tech enthusiasts to form project teams.
- Implemented real-time chat and team discussions using Socket.io for seamless collaboration.
- Designed secure authentication and session management using JSON Web Tokens (JWT) for signups and logins.
- Achieved early traction by onboarding 20+ unique users within the first day of launch, validating platform interest.

Achievements & Certifications

- Solved 250+ data structures and algorithm problems on LeetCode.
- Achieved a LeetCode contest rating of 1561 (Ranked in Top 29% of coders).

- [Technical Certification \[View Here\]](#)
- Elite NPTEL Certification (IIT Kharagpur) – *Introduction to Internet of Things* (Jul–Oct 2025) [[View Certificate](#)]
- Under Top 20 Finalist – NexHack National Level Hackathon (2025), organized by Geeta University. [[View Certificate](#)]
